

## **BOLL WEEVIL PROGRAM UPDATE**

- It has been requested that we shorten the format of our newsletters, so program updates will be sent in this format. We hope these updates provide you with information that will keep you current on the program. Please contact us if you have questions or comments.
- Assessments will no longer be paid at parish FSA offices.  
You are still required to certify your cotton.  
Assessments will be \$6 per acre for all cotton planted.  
You will be mailed a Reporting and Payment Form, along with additional information and where your payment should be mailed.
- Areas that have remained weevil free will be trapped at a density of one trap per 20 acres and will be run every three weeks. Yellow traps will be used in these areas. On some areas adjacent to these fields, traps will be run bi-weekly and spacing will be at 300-600 ft. intervals.  
  
Smaller areas with weevil catches last year will continue to be run weekly and trap spacing will be at 150-300 ft. intervals.
